Medication Policy

| Date approved by School Council | 21st November, 2012 |

Rationale
Teachers and schools are often asked by parents to administer medication for their children while at school. It is important that such requests are managed in a manner that is appropriate, ensures the safety of students, and fulfils the duty of care of staff.

Aims
To ensure the medications are administered appropriately to students in our care.

Implementation:
- Children who are unwell should not attend school.
- Education Support and Principal Class Officers have agreed to be the staff members responsible for administering prescribed medications to children.
- All parent requests to administer prescribed medications to their child must be in writing on the form provided and must be supported by specific written instruction from the medical practitioner or pharmacist including the name of the student, dosage and time to be administered (original medications bottle or container should provide this information).
- All verbal requests for children to be administered prescribed medications whilst at school must be directed to Education Support and Principal Class Officers, who in turn, will seek a meeting or discussion with parents to confirm details of the request and to outline school staff responsibilities.
- Requests for prescribed medications to be administered by the school ‘as needed’ will cause Education Support and Principal Class Officers to seek further written clarification from the parents.
- All student medications must be in the original containers, must be labelled, must have the quantity of tablets confirmed and documented, and must be stored in either the security room or first aid refrigerator, whichever is most appropriate.
- Consistent with our Asthma policy, students who provide the school with written parent permission may carry an asthma inhaler with them, or be stored in the sick bay.
- Classroom teachers will be informed by Education Support and Principal Class Officers of prescribed medications for students in their charge. Classroom teachers will release students at prescribed times so that they may visit the school office and receive their medications.
- All completed Medication Request Forms and details relating to students, their prescribed medication, dosage quantities and times of administering will be kept and recorded in a confidential official loose-leaf medications register located in the security room.
- Students involved in school camps or excursions will be discreetly administered prescribed medications by the ‘Teacher in Charge’ in a manner consistent with the above procedures, with all details recorded on loose-leaf pages from the official medications register. Completed pages will be returned to the official medications register on return of the excursion to school.
- Parents/carers of students that may require injections are required to meet with the Education Support and Principal Class Officers to discuss the matter.

Evaluation
This policy will be reviewed as part of the school’s three year review cycle or earlier if circumstances deem it necessary.
